SIEMENS

SSA.. without auxiliary switch ACVATIX™

SSA..1 with auxiliary switch

Electromotoric actuators

For radiator valves, MiniCombiValves (MCV) and small valves

SSA31.. SSA81.. SSA61..

- SSA31.. operating voltage AC 230 V
 - 3-position control signal
- SSA81.. operating voltage AC 24 V 3-position control signal
 SSA61.. operating voltage AC / DC 24 V DC 0...10 V control signal
- SSA61EP.. equal-percentage valve characteristic
- Nominal force 100 N
- Automatic identification of valve stroke
- Direct mounting with coupling nut, no tools required
- Basic types complete with plug-in connecting cable, length 1.5 m
- Optional cable types
 - Cable length 2.5 m and 4.5 m
 - Halogen-free cables
- Manual override and position indication
- Parallel connection of multiple actuators possible
- Auxiliary switch integrated in SSA31.1 and SSA81.1 actuators
- Optional tamper-proof fitting to prevent dismantling

Use

- For radiator valves, VDN.., VEN.., VUN.., Combi valves VPP46.., VPI46.. and MiniCombiValves, VPD.., VPE..
- For small valves, VD1..CLC
- For radiator valves with M30 x 1.5 threaded fitting, nominal closing dimension 11.6 mm and a 2.5 mm nominal stroke (without adapter). Also for use with third-party valves in conjunction with AV-type adapter

• For modulating or 3-position control in heating systems, chilled ceilings and terminal units.

Type summary

Type reference	Operating voltage	Run time at 50 Hz	Control signal	Connecting cable	Auxiliary switch
SSA31				1.5 m	
SSA31/00 ¹⁾	AC 230 V		3-position	no cable	
SSA31.1		150 s		1.5 m	Yes
SSA81	AC 24 V			1.5 m	
SSA81/00 ¹⁾				no cable	
SSA81.1				1.5 m	Yes
SSA61		34 s	DC 010 V	1.5 m	
SSA61/00 ¹⁾	AC / DC 24 V			no cable	
SSA61EP ²⁾				1.5 m	
SSA61EP/00 ²⁾				no cable	

For available cable lengths or terminal block connectors refer to "Accessories", page 4
 With equal-percentage valve characteristic

Accessories

Type reference	Description		Operating voltage	Control signal	
ASY3L25	Connecting cable 2.5 m		AC 230 V		
ASY3L45	Connecting cable 4.5 m		AC 230 V		
ASY8L25	Connecting cable 2.5 m			3-position	
ASY8L45	Connecting cable 4.5 m		AC 24 V		
ASY8L45HF	Connecting cable 4.5 m, haloge	en-free, VDE 0207	-24

Function / mechanical design

When the actuator is driven by DC 0...10 V control voltage or by a 3-position signal, it produces a stroke which is transmitted to the valve stem.

The description of operation in this document applies to the valve versions which are fully open when de-energized (NO).

• Voltage at Y1:

٠

No voltage at Y1 and Y2:

- Voltage at Y2:
- Stem retracts Stem extends

Actuator maintains its current position

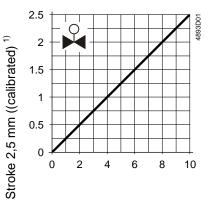

Valve opens Valve closes

signal SSA31.. / SSA81..

3-position control

- DC 0...10 V control signal
- SSA61, SSA61/00
- The valve opens / closes in proportion to the control signal at Y.
- At DC 0 V, the valve is fully closed (A \rightarrow AB).
- When power supply is removed, the actuator maintains its current position.

¹⁾ Actuator is calibrated to 2.5 mm stroke of VPI46.15.L06

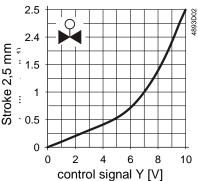

control signal Y [V]

DC 010 V control
signal
SSA61EP,
SSA61EP/00

Combi valves VPI46../VPP46.. in combination with SSA61EP.. have an equalpercentage characteristics.

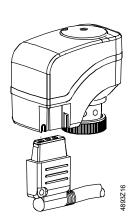

- The valve opens / closes in equal percentage ratio to the control signal at Y.
- At DC 0 V, the valve is fully closed (A \rightarrow AB).
- · When power supply is removed, the actuator maintains its current position.

¹⁾ Actuator is calibrated to 2.5 mm stroke of VPI46.15L06

Features and advantages

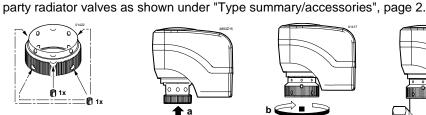

- Plastic housing
- Locking-proof, maintenance-free gear train •
- Manual override with hexagonal socket wrench 3 mm •
- Reduced power consumption in the holding positions •
- Load-dependent switch-off in the event of overload and in • stroke end positions
- Parallel operation of 6 SSA31.., 24 SSA81.. and 10 SSA61.. possible, provided the controllers' output is sufficient
- Terminal block connectors for customer made cables available (only for use with AC 24 V and AC / DC 24 V actuators)
- Connecting cables with AC 24 V and AC 230 V connectors cannot be mixed up
- Halogen-free cables available

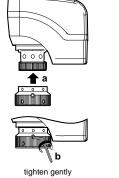

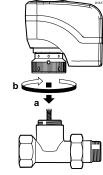

Accessories

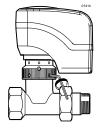

Adapter type AV.. for third-party valves

Tamper-proof fitting AL40

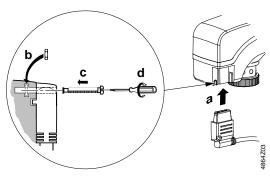

Retaining screw ASY98

....B Type ASY98 to secure the cable connector. Included in ASY99 and ASY100.

Adapter types AV51 to AV61 are available for mounting the SSA.. actuators on third-

The cable connector snaps into position, but can be additionally secured with the retaining screw.

- For special cable lengths of the AC / DC 24 V actuators.
- Type ASY99 for 3-position actuators SSA81../00
- Type ASY100 for DC 0...10 V modulating actuators SSA61/00

The terminal block connectors are supplied complete with mounting instructions (74 319 0385 0).

Engineering	The actuators must be electrically connected in accordance with local regulations (refer to "Connection diagrams", page 9).
∆ Caution	Regulations and requirements to ensure the safety of people and property must be observed at all times!
	The permissible temperatures (refer to "Technical data", page 7) must be observed. The connecting cable of the actuator may come into contact with the hot valve body, provided the temperature of the valve body does not exceed 80 °C. Actuator types SSA 31.1 and SSA81.1 have a built-in auxiliary switch. The switch cannot be fitted in other actuators later.
Mounting	Mounting instructions (Ref. 74 319 0497 0) are enclosed in the product packaging. The actuator and valve are assembled with the coupling nut; no tools or adjustments are required.
∆ Caution	 The actuator must be fitted in position 1 with the power disconnected (refer also to "Manual override", page 6): Position the actuator and tighten the coupling nut manually Do not use any tools such as wrenches Avoid lateral pressure or (cable) tension on the mounted actuator! In the case of actuators without a connecting cable (SSA/00), the separately ordered
Orientation	terminal block connector and connecting cable must be fitted.
Installation	4.55 mm 4891Z33 Crimp ferrule on stripped wire of connecting cable.
Commissioning	 When commissioning, check the wiring and the functioning of the actuator and auxiliary switch, if fitted. Actuator stem extends (from position 1 to 0): Valve closes Actuator stem retracts (from position 0 to 1): Valve opens
Self-calibration	During commissioning and whenever the operating voltage is switched on, the SSA61 runs a self-calibration routine. (Valve stroke $0 \rightarrow Max$. stroke \rightarrow Setpoint). Never intervene manually in this process.

<u>Note:</u> Correct calibration is only possible • with valve • stroke > 1.5 mm	The second or third attempt at calibration occurs automatically minute delay. After three failed calibration attempts the actuator stem remains extended position and the radiator valves are closed. For valves with strokes < 1.5 mm, the actuator/valve combination three failed calibration attempts. The new Siemens type VDN, VEN and VUN radiator valves has 1.5 mm stroke.	s in the on locks after
Operation	A 3 mm hexagonal socket wrench can be used to move the actuator to However, if a control signal from the controller is present, then this take determining the position.	• •
Note	To retain the manually set position, unplug the connecting cable or swite operating voltage and the control signal.	tch off the
Manual override	B A A C B B C C C	5.5 mm stroke

Maintenance

The actuators are maintenance-free.

When carrying out service work on the plant, following must be noted:

- Turn power off (e.g. remove the plug)
- If necessary, disconnect electrical connections from the terminals
- The actuator must be commissioned only with a correctly mounted valve in place! SSA.. actuators cannot be repaired; the complete unit must be replaced.

Repair

Disposal

The device is considered an electronics device for disposal in terms of European Directive 2012/19/EU and may not be disposed of as domestic garbage.
 Dispose of the device through channels provided for this purpose.
 Comply with all local and currently applicable laws and regulations.

Warranty

The technical data given for these applications is valid only when the actuators are used with the Siemens valves listed under "Equipment combinations", page 2. The use of the SSA.. actuators in conjunction with third-party valves invalidates any warranty offered by Siemens Building Technologies / HVAC Products.
